

A modern two-story house at dusk. The house features a combination of light-colored horizontal siding and white brickwork. The front facade includes a large two-car garage with a white door, a central front door with a transom window, and several windows on both levels. Warm interior lights are visible through the windows and the garage door. Exterior lighting is provided by wall sconces and recessed lights under the eaves, creating a cozy and secure atmosphere. A small tree and a red stop sign are visible in the front yard.

# How to Create Your Smart Home Security System

A Step-By-Step Guide

# Building a system is simple

## 1 Start with security and safety

We customize each Vivint system around a core package to keep your home safe and secure.

Vivint Smart Hub  
[Learn more \(pg. 8\)](#)

Security Sensors  
How many do I need?  
[Learn more \(pg. 8\)](#)

Yard Sign

Vivint App  
[Learn more \(pg. 8\)](#)

24/7 Monitoring  
[Learn more \(pg. 11\)](#)

Additional safety and security features are available:

Vivint Smoke Detector

Vivint Carbon Monoxide Detector

Vivint Water Sensor

Emergency Pendant

## 2 Next choose your cameras

We highly recommend security cameras to extend your home's protection—inside and out.

Vivint Doorbell Camera Pro  
[Learn more \(pg. 9\)](#)

Vivint Outdoor Camera Pro  
[Learn more \(pg. 9\)](#)

Vivint Indoor Camera  
[Learn more \(pg. 9\)](#)

Vivint Smart Drive  
[Learn more \(pg. 10\)](#)

## 3 Consider home automation

Home automation features bring comfort and convenience that you can control no matter where you are.

Vivint Smart Thermostat  
[Learn more \(pg. 10\)](#)

Smart Locks  
[Learn more \(pg. 10\)](#)

Garage Door Controller  
[Learn more \(pg. 11\)](#)

Vivint Car Guard  
[Learn more \(pg. 11\)](#)

A Vivint system easily integrates with smart home devices you may already own:

Philips Hue (smart lighting)

Google Home

Amazon Echo

Nest Thermostat

# What happens next?

It's easy. You've done your homework—your smart home is just a call away.

## Review your system.

Call **877.293.7975** and a Smart Home Pro will discuss your plan for a customized security system.

## Get a quote. It's free.

Lock in a quote after finalizing your system with a Smart Home Pro.

## Get Installed.

Work with your Smart Home Pro to schedule professional installation at your convenience.

## FAQS

Still have questions? We have the answers.

### Are home security systems worth the money?

We might be biased, but absolutely. You really can't put a price tag on the convenience and peace of mind that comes with knowing your home and everything in it is safe and secure. That means:

- **Deterring crime**, keeping intruders out, and protecting what's inside.
- **Fire and carbon monoxide protection**—even when you're asleep or away.
- Someone's always there to respond to an alarm with **24/7 support and monitoring**.
- Potentially **saving on homeowner's insurance** and monthly utility spend.

At Vivint we're here to help you personalize a home security system that fits your home, needs, lifestyle, and budget. In other words, we'll help you create a system that works for you and more than justifies the investment.

Everyone deserves to feel safe and sure at home, which is why at Vivint we work with you to make security system affordable. We have payment plans to fit your budget. And with 0% product financing and low monthly service payments that ensure 24/7 monitoring and customer support, protecting your home is easier and more affordable than ever.

## Do home alarm systems really work?

Yes. We've built an entire company around that fact. And we service more than 2 million customers throughout North America because home alarm systems and security do, in fact, turn your home into a safer haven. They work, and Vivint is leading the industry.

What happens if you're not home to hear the alarm? That's where Vivint's award-winning 24/7 monitoring and support play a crucial role. Our home specialists are always available to respond to an alarm and send first responders if you can't be reached. That means powerful peace of mind for you, knowing that your home is protected no matter where you are.

## How much does a security system cost?

A smart home security system really is more affordable than you might think. When you purchase a Vivint system you're paying for three things:

- 1 Equipment
- 2 Professional Installation
- 3 Monthly monitoring fees

That means the cost of a security system varies depending on the level of protection and automation you want—the more devices you add to your system, the greater your equipment costs.

Financing programs are available to assist with equipment costs. And Vivint routinely offers promotional discounts wherein the cost of installation is waived. You'll pay monthly monitoring and support fees as long as you have your system—it's a pricing and payment model similar to that of your cellphone. Give us a call at **877.293.7975** for specific pricing.

# How a Vivint security system works

When you choose Vivint, you're getting a top-tier home security with the latest technologies available.

Your core package lays the foundation for a system that includes:

- The most advanced smart home products available, all connected and working together.
- Complete control over your system from anywhere using the app and your smartphone.
- Build on that foundation for enhanced security and safety with devices.

Build on that foundation for enhanced security and safety with devices that guard against: fire, extreme temperatures, carbon monoxide, or water damage.

# Security cameras are a smart choice.

Vivint's indoor and outdoor cameras, including the Vivint Doorbell Camera Pro, work together with your entire system to further fortify your home.

**Monitor interior and exterior camera footage** from the Smart Hub inside your home or using the app on your phone.

**Protect your front porch** and see and speak to whoever's at your door with the Vivint Doorbell Camera Pro.

With the Vivint Smart Drive you get 30 days of **continuous recording** from up to six cameras.

You won't miss a thing with the ability to view your camera footage and monitor home from anywhere.

# Enjoy the comfort and convenience of home automation

Reduce your stress and create a relaxing environment with home automation features and enhanced control options.

Control lights and temperature using the app or simple voice commands with a smart speaker.

With smart locks you can forget about keys. Lock your door with a tap on your smartphone.

Always know your garage and vehicles are secure with Garage Door Controller, Car Guard, and the Vivint app.

Home automation controls are mobile with the Vivint app. You'll love the convenience of controlling home from anywhere.

# Learn more about products you need

## Vivint Smart Hub

The Vivint Smart Hub is the brains of your smart home. It's one control dashboard for your entire system making home management simple and convenient.

---

- The elegant touchscreen user interface makes operating your system easy and intuitive.
- Instant two-way talk allows you to speak to family, visitors, or Vivint's monitoring and support team.
- A backup battery keeps your system running even when the power goes out.

## Safety and Security Sensors

It's impossible to be everywhere at once—even when you're home. So consider sensors the eyes and ears of your living space, keeping you apprised of what's happening no matter where you are.

---

- Get notified of suspicious movement in your home with motion detectors.
- If a window is broken, you'll be sure to know with glass break sensors.
- Be alerted if home entry points have been penetrated with window and doors sensors.

## Vivint app

Do you worry when you leave the house? You don't have to with the Vivint app. It allows you to control your entire system and monitor home no matter where you are.

---

- Always know that your doors are locked and home is secure.
- Receive alerts and notifications directly to your smartphone.
- View live and recorded security camera footage anytime, anywhere.

## Vivint Doorbell Camera Pro

Want to know that the entrance to your home is secure? The Vivint Doorbell Camera Pro works intuitively to protect your porch and your packages.

---

- The Doorbell Camera Pro uses light and sounds to alert potential porch thieves they've been spotted.
- Advanced camera analytics detect and notify you of the people and packages on your doorstep.
- With two-way talk and one-way video, see and speak with visitors at your door from anywhere.

## Vivint Outdoor Camera Pro

If you're concerned about intruders, you want the Vivint Outdoor Camera Pro securing your home. This AI-enhanced security camera doesn't just record crime—it helps prevent it.

---

- It's the only surveillance camera with lurker detection that identifies and deters true threats.
- Potential intruders know they've been spotted with the camera's light and sound detection features.
- Receive notifications and recordings only when your camera detects people, not pets or passing cars.

## Vivint Indoor Camera

If you like the idea of keeping in touch with the kids while running errands without relying on cell phones, then the Vivint Indoor Camera is the solution you need.

---

- See what's happening in your home, anytime day or night, with infrared night vision.

## Vivint Smart Drive

You can't watch every security camera all the time. So review your footage whenever you want with a smart drive that records and stores video with easy-to-use markers.

---

- Smart Drive comes with Vivint Playback—a user-friendly, 1TB, low-cost video storage solution.
- Save a month of footage from up to six cameras and browse minute by minute using event markers.
- Because markers are placed in your timeline whenever cameras detect motion, searching video is simple.

## Vivint Smart Thermostat

Imagine a smart thermostat that adjusts the temperature for you to keep home cozy—all while saving you money on your monthly utility spend. Say hello to the Vivint Smart Thermostat.

---

- The Vivint Smart Thermostat learns your preferences and auto-adjusts to keep your home comfortable.
- Easily adjust temperature using the app and your smartphone from anywhere.
- Incorporate a smart speaker into your system and adjust temperature with a voice command.

## Smart Locks

Do you forget to lock the door on your way out? Is keeping track of keys for the family and your guests a full-time job? Smart locks offer freedom and security.

---

- Lock and unlock your doors from the next room or the next state using the app on your phone.
- Get notified if you leave your door unlocked and simply lock it using your phone.
- No more keys. Create unique access codes for family members and guests.

## Garage Door Controller

Never again will you turn around on your way to work to go home and make sure you closed the garage door. Garage Door Controller takes care of it for you.

---

- Control your garage door from anywhere using your smartphone and the app.
- Get notified if the garage door is left open and close it remotely.
- Know that home is secure. Receive an alert if someone tampers with your garage door.

## Vivint Car Guard

No need to stress about securing your car. With Vivint Car Guard, your vehicles are protected no matter where you park them.

---

- The same app that allows you to monitor home provides vehicle security with location tracking, tamper alerts, and diagnostics.
- Car Guard syncs with your home security system, activating outdoor camera lights and video recording when your car is disturbed.
- Because it integrates with Garage Door Controller, Car Guard automatically closes your garage door whether you're coming or going.

## 24/7 Monitoring and Support

You never need a house sitter with Vivint's 24/7 monitoring and support. Our team of specialists is available day and night to answers questions and assist.

---

- Vivint specialists are always ready to respond to an emergency, even when you can't.
- The monitoring team automatically sends first responders if you can't be reached.
- Easily two-way talk with monitoring through your Smart Hub when you need assistance.

# Protecting home with a security system is simpler than you thought, right?

With Vivint, you get top-tier home protection with the latest technologies available—personalized to fit your home and lifestyle. Every device connects and works together, and you can control your system from anywhere. Couple that with our 24/7 monitoring and support services and you can relax, knowing home is secure.
